Step 4: Start reading daily!

Step 5: Keep notes of verses that stand out to you or do other cool things in the app

You can do things like change bible versions or “compare” different versions. You can even save a verse to a notes facility on your phone. To do this: Click on any verse that stands out and the functions below will appear.

Step 6: if all fails, get a physical bible. I have a plan for that too!

The advantage of an app is you can read it anytime, anyplace. In addition, some bible versions have an audio version, so you can listen to your reading for the day, while cooking, cleaning, driving etc.

May the grace of the Lord Jesus be with you!
